

MOBILE PAYMENT SOLUTION FOR UNIVERSITIES

THE CLIENT

The customer is a leading company focused on helping college business offices manage operations and provide enhanced service to students. They provide services to more than 675 distinguished public and private higher education institutions throughout the US representing a total enrollment of more than 4.8 million students.

BUSINESS NEED

The customer envisaged a mobile integration for its flagship payment solutions product that would enable students to manage and pay their payments in a self-service model.

TECHNOLOGY USED

- Android and iPhone/iPad native apps environment

BUSINESS BENEFITS

- Through mobile app, mobile deposit technologies and text alerts, students can keep track of their finances from anywhere.
- Improved user experience and student retention

SOLUTION DELIVERED

AL TEN Calsoft Labs started work on the payment suite of products with maintenance and support of the legacy product. With the advent of smart phones and their increased adoption by student fraternity, the customer asked us to integrate the payment solution on Android and iPhone devices.

We developed mobile friendly versions of various self-service portals for students to manage their payments right from admission to graduation with timely alerts and financial aid disbursement.
